TRIED AN ESCAPE

N. MARTIN, COUNTY PRISONER, ATTEMPTED TO STEAL GUN FROM A GUARD.

CAUGHT BEFORE HE COULD WORK

A Ninety-Day Prisoner Attempted to Steal Revolver From County Guard Ed Bouldin—Detected by Guard Thomas.

A daring attempt to escape from the Pettis county chain gang by N. Martin, a prisoner serving a ninety days' jail sentence in the county jail for brutally assaulting an M. K. & T. switchman, was brought to the attention of Sheriff M. T. Henderson Saturday by other inmates of the institution.

Martin, who was incarcerated one day the past week, is one of the meanest prisoners in the bastille. According to the story of the men who informed the authorities, Martin had planned to effect his escape Thursday.

His scheme was to sneak up behind Edward Bouldin, a guard of the prisoners, while the men were at work on the county road, suddenly relieve Bouldin of his revolver and then effect his escape by threatening to kill the guards if they did not permit him to disarm them.

At the allotted time, as previously arranged by Martin, he requested Bouldin to do something for him. Bouldin had no sooner turned his back and started to do it than Martin was close on his heels.

W. S. Thomas, another guard, saw Martin sneaking up behind Bouldin and he likewise followed, sneaking behind Martin. The latter was just on the verge of taking the officer's gun, when Thomas made his presence known, causing Martin to desist in his attempt to escape.

Martin, since having been sent to jail, has made several threats to kill Guard John Jaekel and also Bouldin, but the officers have kept a close watch on him to prevent any demonstration of that nature.

A warrant charging the beating of a board bill was issued from the "four courts" Saturday morning at the request of Mark Wilcox. The latter kept a watch on Garrett at the Missouri Pacific station at 7 o'clock Saturday morning, awaiting the arrival of a deputy constable to serve the warrant.

While the deputy was speeding to the station Garrett walked out of town, following the Lexington branch tracks. All day the authorities searched for him, but nothing was heard from him until the message came announcing his arrest.

Garrett will be brought here to day.

WANT TO RAISE SUM OF \$50,000

Another Important Meeting Will Be Held Tuesday Afternoon at the Office of Montgomery and Montgomery.

A preliminary meeting was held at the office of Montgomery & Montgomery yesterday afternoon, and a list of names of individuals, who, it was expected, would serve on the committee, prepared.

These will be called upon and invited to meet Tuesday afternoon at 4 o'clock at the same office for the purpose of organizing and planning the work.

The meeting, was called for Monday afternoon, the fact having been overlooked that Monday is a holiday, and hence the meeting was postponed until Tuesday at 4 o'clock.

All recognize the necessity for a home for this great work among the young men and boys of our city.

A number of Sedalia's business and professional men have made up their mind that this city shall not be behind the others in caring for and protecting its most valuable asset, its young men and boys and to this end they have selected Mr. S. E. Spencer as general chairman to have charge of raising the funds to purchase a lot and erect a building suitable for the size of the city to be devoted to the work of the Young Men's Christian association. Mr. Spencer has associated with him, as chairman of different teams John Montgomery, Jr., Dr. W. J. Ferguson, T. H. Johnston, Lee Montgomery, Judge D. E. Kennedy, Judge J. D. Bohling, E. E. MORE THAN DENIAL NECESSARY

Senator Lorimer in the senate yes-
terday most vehemently and earnest-
ly denied that his election was in
any way the result of bribery, and yet
in Chicago at about the same time,
Lorimer's own attorney was endeavor-
ing to secure the release of
Brown, charged with the bribery, on
the grounds that to bribe a legislator
to vote for a United States senator
is not an offense of which a state
can take cognizance, that that par-
ticular sort of grafting is breaking
a federal law.

It will take more than a denial to
clear Lorimer's skirts, in view of all
the circumstances, and especially the
developments in the Illinois capital
Saturday.

FOR PRESIDING JUDGE

Judge A. L. Haggard Makes Formal
Announcement Today.

Judge A. L. Haggard, who is serv-
ing his second term as a member of
the Pettis county court from the
Western district, today makes formal
announcement of his candidacy for
the office of presiding judge, subject
to the democratic primary on August
2d.

Judge Haggard is almost too well
known to need commendation at the
hands of any newspaper, for he was
born and reared in this county, and
during all of that period he has ever
been found battling in the cause of
democracy.

"Lock" Haggard, as he is called by
his personal friends, is one of Pettis
county's most substantial and upright
citizens—a man whose word is as
good as his bond 365 days of the year.

As associate judge from the West-
ern district, he has made a record of
which any citizen might be proud.
Ever fearless in the performance of
his duties, he has made friends on
every hand, and his four years' ex-
perience as associate justice will be
of untold value to him as presiding
judge.

The Democrat-Sentinel knows of no
man within the confines of the county
whose personal popularity would add
greater strength to the democratic
ticket this fall than Judge Haggard's,
and if he should be honored by his
party with the nomination he seeks
this paper feels confident of his elec-
tion by a splendid majority.

FOR COUNTY RECORDER

Judge O. E. Parsons Aspirant for
Democratic Nomination.

Judge O. E. Parsons makes formal
announcement in the Democrat-Sen-
tinel today of his candidacy for the
nomination of recorder of deeds for
Pettis county, subject to the democ-
ratic primary on August 2.

Judge Parsons was for years a
popular conductor on the M. K. & T.
railway, but the loss of an arm
while in the service necessitated his
retirement.

A life long democrat, he was no-
minated for probate judge of Pettis
county, and surprised all by the size
of his majority. So acceptably did
he serve that he was renominated
and re-elected, and his second term
was practically a continuation of his
first, so far as serving his constitu-
ents faithfully and efficiently is con-
cerned.

Later, Judge Parsons was an as-
pirant for the nomination for rail-
road and warehouse commissioner,
but he was a little late in entering
the race, and the honor was accorded
another.

Judge Parsons' democracy has
never been questioned. There has
never been a campaign in Pettis
county that he did not labor zeal-
ously and intelligently for the entire
ticket, and his work never failed to
bring forth good results. He is
widely known in the country as well
as in Sedalia, and his friends are
legion. In fact, it is doubtful if there
is a more popular gentleman in the
county, or one with a larger personal
following.

If given the nomination he seeks
Judge Parsons will add material
strength to the ticket, and he will
leave nothing honorable undone to
see that it is elected from top to
bottom.

The readers of this paper will be pleased to
learn that there is at least one dreaded disease
of the human system which has been able to cure in all its
stages, and that is Catarrh. Hall's Catarrh
Cure is the only positive cure known to the medical
fraternity, Catarrh being a constitutional
disease, requires a constitutional treatment.
Hall's Catarrh Cure is taken internally, acting
directly upon the blood and mucous surfaces of
the system, thereby destroying the foundation
of the disease, and giving the patient strength
by building up the constitution and assisting
nature in doing its work. The proprietors have
so much faith in its curative powers that they
offer One Hundred Dollars for any case that it
fails to cure. Send for list of testimonials.

Tuesday morning starts our big remnant sale. A sale that so many have been making inquiries about and waiting for. Those who were fortunate enough to attend our remnant sale last year remember the extraordinary bargains they picked up from the various stacks and counters in good dependable fabrics. This sale will be greater than any remnant or mill remnant sale that we have ever held, as remnants and short lengths are from our own stock—just the last ends from bolts that we find left from heavy spring selling. So far we have gathered the profit from selling off bolts. Now profits and cost are entirely lost sight of. Read every item. Come to our big remnant sale Tuesday, Wednesday and Friday. THE MEN TO SERVE

A SUPPER PREPARED FOR EAST
SEDALIA LADIES TUES-
DAY NIGHT.

RESULT OF CONTEST JUST CLOSED

It Was Between Berean Bible Class
and Brotherhood Bible Class of
the East Broadway Chris-
tian Church.

On January 23, this year, the Bereans, a Bible class in the East Broadway Christian church for women of varying ages, and the Brotherhood Bible class, for handsome men, began a contest which has recently closed.

The points in the contest were as follows:

Largest attendance, 5; largest offering, 5; each new member, 5; each visitor, 3. At the close of the contest 25 points were to be added to the side having the largest average attendance, and 25 also for the largest average collection.

The final count shows that the Bereans made 253 points and the Brotherhood class 162.

Near the beginning of the contest a joke became current in the school, that the men would beat anyway it came out for if they made the most points they would get to eat the women's cooking, and if the women made the most points they would have to eat the men's cooking.

The result is that the Brotherhood is to entertain the women of the Berean class next Tuesday night, May 31, at the home of Mr. and Mrs. Eugene Atterberry, 710 East Broadway.

The names of the men enrolled, either a part or during all the contest, follow:

Messrs. G. F. Garman, J. E. Hayes, J. D. Berry, Archie Franklin, Albert Goetz, C. F. McVey, K. D. Bradley, E. T. Lettwich, J. S. Hopkins, E. R. Votaw, W. H. Mayfield, I. H. Guyman, J. H. Gray, Garlen Gray, Ragle Rockett, Albert Rockett, Clay Finch, David Saunders, A. E. Gardner, J. F. Hunzicker, Eugene Atterberry.

These men are preparing a digestible treat for the Bereans and hope to see the members of the class present at the time announced.

WRITING SUCCESS

EXAMPLES OF HOW STENOGRAPHERS GAIN TOP OF LADDER.

A BUSINESS COLLEGE EDUCATION

Business College Education Fits One for Ascent to the Places "On Top."

Every child is taught in this free American land that he may become a president of the republic. All can not win the coveted prize, but some one will. If we can not come quite to the top, we may climb toward it, and there is no stepping stone in the way of education that gives one so sure a foothold as shorthand.

George B. Cortelyou, who in 1903 received his appointment to a place in the president's cabinet began as a stenographer. His marvelous usefulness as secretary to the president and head of the new department of commerce and his other various positions with the government, is attributed to his having taken a business and shorthand course.

These courses taught him speed and accuracy in disposing of details, and system and order in accomplishing a large amount of work in a short space of time with one-half the help that was ordinarily required for the same work under other direction. George B. Cortelyou today stands head and shoulders above any other young man of his age in the affairs of the government. He is pre-eminent a business man.

The Rev. Joseph Parker, D. D., of London, said: "I practiced phonography for upwards of twenty years and derived so many advantages from its use that I can heartily recommend its study to all who wish to secure a civil, philosophical and perfect system of recording things." Dr. Parker further showed his appreciation of this branch of learning by choosing for a wife one who was familiar with the useful art and who helped him largely in accumulating and preserving the literary stores which he lavished so largely on the eager public.

The Commercial Advertiser of New York said: "Inquiry shows that many of the large business concerns are welcoming the additional advantages of phonography as part of the young man's equipment, because it enables him to not elaborate instructions, to execute them without delay. Several banks in this state make it a rule not to employ a messenger, clerk or bookkeeper who can not write shorthand."

The question is not, Can I afford to study shorthand, but can I be without it? When in the early days of phonography the great Senator Benton, of Missouri, was surprised when a young lad showed him a verbatim report of one of his great speeches, and exclaimed: "Had this art been known forty years ago it would have saved me twenty years of hard labor."

Can the young gentleman or young lady who contemplates a university course or a course in any higher education afford to do without shorthand? Don't you think that the one who goes in side by side with you in your university course and has the advantage of a knowledge of shorthand will outstrip you in your classes in the general information that he gains, in jotting down all the essential points in every lecture, speech or class drill; that he will gain a fund of knowledge that will be impossible for him to gain without the use of this rapid jotting down of these items?

Write C. W. Robbins or call and talk with him for information regarding the school in general of the special summer term of Central Business College.

VARNEY ENDS LIFE

THE SON OF DENTIST AT BOONVILLE, MISSOURI, COM-MITS SUICIDE.

QUARRELED WITH YOUNG WOMAN

Latter Became Hysterical When Informed of the Death—Varney Had Been Trying to Secure a Divorce.

Kansas City, Mo., May 28.—In front of the home of Miss Stella Back, No. 2005 Jefferson street, Harold Varney, of Boonville, Mo., dropped to the sidewalk unconscious at 2:30 o'clock Friday afternoon, and died an hour later at the General hospital.

Physicians at the hospital said the man had either taken carbolic acid or a large dose of oil of cloves.

Varney came here a week ago from Boonville, where he had been trying to obtain a divorce.

When Miss Back was told Varney was dead she became hysterical. She said she had had a slight quarrel with Varney. It was about some matter so trivial she scarcely could recall it, she said.

In Varney's pocket were found several empty envelopes and the name and telephone number of Miss Back. He appeared to be about 23 years old. His father, a dentist in Boonville, was notified.

Prominent Citizen of Blackwater Township Announces.

Dr. R. Senton Tyler, of Blackwater township, one of the best known and highly respected citizens of Pettis county, today makes formal announcement of his candidacy for the democratic nomination for representative in the next general assembly, subject to the action of the primary Aug. 2.

Dr. Tyler has lived in Pettis county since 1872, and practicing medicine as he has, has gone up and down among the people until his very name has become a personification of good deeds and kindly acts. Many homes are there to which his coming has been the arrival of hope and to hundreds has he brought with him the patience and tenderness and skill that has meant life to some soul just upon the brink.

As a physician he is loved, as a citizen respected, and it goes without saying that his friends will rally to his support in his present aspirations.

Always a democrat, conservative, but loyal to the principles of his great party, he has labored unselfishly for its advancement and never before has he asked or received any honors. If nominated and elected he would serve his state and county with fidelity and zeal and will ever be found advocating measures that are based upon the doctrine of justice and right.

New records were made in the mile run, 440 yard dash, half-mile run, 220 yard dash, discus throw, two-mile run, shot put and running broad jump.

Missouri proved the sensation of the meet, as it was generally believed that the school was not in the running. The two-mile event was won by Steele, of Missouri, in the fastest time ever made west of the Mississippi. He ran it in 9:56 3-5.

LORIMER DENIES CHARGES

Claims Bribery Accusations Were Prompted to Wreck His Bank.

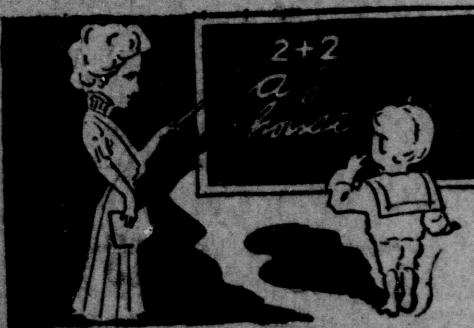

Associated Press.

Washington, May 28.—Strenuous denial of the charge that he obtained his seat in the United States senate through bribery and corruption was made before that body today by William Lorimer, of Illinois. Foremost in the answer of the senator to the charge stood his assertion that it had been formulated by the Chicago Tribune with the purpose of destroying a new banking association in that city which he had organized. Concluding Lorimer offered a resolution calling for a senatorial investigation of the charges against him.

IMPROVEMENTS BEING MADE ON MISSOURI PACIFIC WARSAW BRANCH.

COACH, CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources for the Benefit of Democrat-Sentinel Readers.

Reproducing an article from the Democrat-Sentinel in regard to the betterments on the Warsaw branch of the Missouri Pacific, the Warsaw Enterprise of May 27 says:

One can hardly realize the change from the old-time dilapidated narrow gauge, and the facilities now being made on the Warsaw line, with its two trains a day and fast passenger service.

And it is not improbable that a great deal is due ex-Prosecuting Attorney Barrett for his legal persistence in making the defects of the road two years ago, with its one slow, irregular and bumpy-bump train, appear so glaring to the management that it stopped court proceedings with the promise of putting on the fast train from Kansas City and putting the roadbed in good condition. In fact, to have a train make good time was to necessitate improvements in the roadbed.

While Benton county is forging ahead in increased production and business, it owes a great deal of it to the improved railway facilities to the lowest passenger and reasonable freight rates.

Mr. Cadle Was Re-Elected.

A telegram Saturday to the Democrat-Sentinel from Detroit, Mich., sent by Engineer Charles E. Games, of the Missouri Pacific, brought the pleasing intelligence that M. W. Cadle, of this city, had been re-elected for another term of four years as assistant grand chief engineer of the Brotherhood of Locomotive Engineers by the international convention.

A legion of friends here and throughout the entire country will unite with the Democrat-Sentinel in extending congratulations to the genial Sedalian on this second recognition of his ability by one of the greatest labor organizations on earth.

Accidents Due to Negligence.

That negligence of employees is the cause of 85 per cent of the railroad accidents occurring in the United States, E. F. Schneider, general manager of the Cleveland Southwestern & Columbus railway, said in an address before the convention of the General Electric association at Toledo, Ohio, Friday.

Mr. Schneider finds that 13 per cent of accidents are due to the negligence of the public and only 2 per cent to hidden defects or the acts of God. Mr. Schneider said that discipline has been tried and found wanting as a means of preventing accidents.

No Trouble at the Shops.

There has been no semblance of trouble at the Missouri Pacific shops since sixty-six strike breakers were put to work the past week to take the places of the machinists who walked out on May 2, and none is anticipated.

The boilermakers and blacksmiths have signed new wage schedules with the company, and union men are employed in all departments except the machine shop, which it is believed will be an "open shop" all over the system in future.

Will Attend a Convention.

Walter D. Moore, chairman of the grievance committee of the Brotherhood of Locomotive Firemen and Enginemen, accompanied by his wife, will leave the latter part of this week for St. Paul, Minn., where the former will attend the convention of the B. of L. F. and E.

They will be accompanied as far as Chicago by Mrs. Moore's sister, Mrs. Frank Hayhurst, of that place, who has been visiting here for some time.

Sedalia Machinist Is Called.

Don Ringler, a well known Missouri Pacific machinist, received a message Saturday from the master mechanic of the Trinity & Brazos Valley railway at Teague, Texas, requesting him to go there at once to fill the position of night round house foreman at that point.

Mr. Ringler will leave for Teague about Tuesday or Wednesday, and will enter upon his new duties on his arrival there.

Able to Be Out Again.

Norman A. Hirst, a Missouri Pacific shopman, who resides with his family on New York avenue, resumed work yesterday, after a few days' lay-off nursing a case of chickenpox, and

not smallpox, as reported by another local paper.

Bridge Damaged by Fire.

An M., K. & T. bridge, over a branch of the Neosho river, 210 feet long and located one mile south of St. Paul, Kas., caught fire at 6:30 o'clock Saturday morning and was badly damaged.

As a result northbound Katy Limited train No. 10 was delayed two hours. Bridgemen were sent to the scene at once and began repairing the bridge as soon as the fire was extinguished.

Will Soon Be Back to Work.

Clyde W. Bower, the well known High school athlete, is spending today in St. Louis with his father, Ben Bower, who is at the Missouri Pacific hospital there.

Mr. Bower's legion of friends will be glad to hear that his hand is healing rapidly, and it will be only a short time until he will resume his duties as night yardmaster here.

More Strike-Breakers Here.

Twenty-five additional strike-breakers for the Missouri Pacific shops arrived in Sedalia on Missouri Pacific train No. 1 Saturday afternoon, making a total of ninety-one non-union machinists now at work there.

The men were taken from the train at New York avenue and ushered to the shop grounds, where they will be boarded.

Brakeman Taken Ill.

Mike Maroney, a Missouri Pacific brakeman, while working on the work train at Pleasant Hill with Conductor W. C. Mann Saturday, was taken ill and had to be relieved by H. E. Spillers.

Coach Carpenter's Son Dead.

An infant son of John H. Glassburn, an M., K. & T. coach carpenter, died from spinal meningitis at his parents' home, Twentieth street and Limit avenue, Friday night. The body will be taken to Green Ridge today for burial.

Etzbach Is Doing Well.

Fred Etzbach, a Missouri Pacific brakeman, who is a patient at the company hospital at Kansas City, where one limb was amputated at the ankle a week ago yesterday, is convalescing nicely.

Men Wanted by the M., K. & T.

Sixty passenger and freight car repairers can secure employment at the M., K. & T. shops in this city by making application to Master Carbuilder W. A. Mitchell. Only first-class men are wanted.

Automatic Couplers.

G. R. Chamberlain, a Missouri Pacific claim agent, returned last night from Kansas City.

On account of tomorrow being Memorial day, the M., K. & T. shops will be closed for the day.

Arthur Frakes, roadmaster for the M., K. & T., made a business visit at Paola, Kas., Saturday.

J. M. Chandler, roadmaster for the Missouri Pacific, made a business visit at Pleasant Hill Saturday.

Will Thomas, a Missouri Pacific telegraph operator, returned Saturday from a brief visit at Kansas City.

C. M. Hunt, trainmaster for the Missouri Pacific, returned yesterday from a business visit at Kansas City.

M. C. Burns, foreman of the water service of the Missouri Pacific, made a business visit at Pleasant Hill Saturday.

Missouri Pacific train No. 1, due here at 2:30 p. m., arrived forty minutes late Saturday, due to a leak age of engine No. 5522.

William Haugen, supervisor of bridges and buildings for the Missouri Pacific, made a business trip to Pleasant Hill Saturday.

W. A. Shane, a former M., K. & T. brakeman out of this city, now employed as a machinist at Parsons, Kan., arrived here Friday night for a visit with his wife who is the guest of her parents, Mr. and Mrs. C. R. Gorrell.

STANDS FOR CHILDREN

Presbyterian General Assembly Took Advanced Stand on Problems.

Atlantic, N. J., May 28.—The Presbyterian general assembly closed today and will meet here next year. The report of the committee on social problems says: "The getting of wealth must be in obedience to the Christian ideal," declared for the abolition of child labor, the protection of children and one day's rest in seven for every worker.

It also declared that heresy, license and lawlessness are rife and it is therefore necessary that the church should bear unflinching witness against these terrors in the faith.

Saloon Thought No. 404

Inebriety and consumption are twin diseases, the one following the other. The disease germs of the latter would not flourish in the lungs if the brain and nervous system were strong enough to throw them off. Alcohol not only frequently causes tuberculosis, but there are many cases where the children of drinkers develop the white plague. A consumption patient frequently presents himself, in whom the most diligent search fails to reveal the slightest trace of family consumption. The condition is frequently found in the young, especially in girls, who, after careful inquiry, are found to have a father or mother, or sometimes both, who have been tipplers of alcohol.

Children of alcoholic parents are from 200 to 260 per cent more liable to consumption and from 300 to 600 per cent more prone to nervous diseases than are the children of abstemious parents.—D. T. J. Mays.

NEVADA POST MAKES A MESS IN WRITING OF JOHN MONTGOMERY, JUNIOR.

CONFOUNDS HIM WITH "JAMES T."

Would Like to See "John" Governor of Missouri—Latter Credited With a Letter Penned by "James T."

John Montgomery, Jr., was for several years a member of the board of managers of the state insane asylum at Nevada, Mo., and is personally known to many of the people of Vernon county, but the editor of the Nevada Post evidently does not know that Mr. Montgomery has no middle name and hence the "T" is cut of place.

Neither does the editor of the Post know that he has confounded John Montgomery, Jr., with his relative, James T. Montgomery, also an attorney of this city, as will be seen by the following article clipped from Friday's issue of the Post, reproducing a letter written to the state game warden by James T. Montgomery:

"Everybody in this section of Missouri and some people in Kansas know John T. Montgomery, of Sedalia, and knowing him they are not surprised that he should get into any old talk about game and game birds. "And that reminds the Post that it would rather see him governor of Missouri than any man in the state. But some fellow without the good of the commonwealth at heart would show him a new kind of a fish hook or tell him about a flight of jacksnipe and without further notice the state could write up a want local for a lost governor.

When he goes to heaven (and if he don't go there is mighty little hope for the rest of us) he will stop at the gate and chat with Peter about the fishing in Galilee.

"Of course he wants some of the state pheasants, and if the warden fails to watch there will be one of the birds under each buck-bush in Pettis county.

"Now read this letter to State Game Warden Tolerton and you will think you are talking to John Montgomery. Without the signature the writer of this article would swear to it: "I am very glad, indeed, to note that the state of Missouri has a game warden who realizes the importance of the propagation, as well as the protection of our game birds, fish and animals.

"You are making a wise move in arranging for the propagation and distribution of Chinese ring necked pheasants and English pheasants. And, by the way, there is no difference between the two birds.

"The ancestors of the English pheasants were imported from China to England some three hundred years ago. For the past three or four years I have been reading up on the propagation of the Chinese and English pheasants, and I find that the climate is well adapted for either.

"They are not only a handsome bird, but also a splendid table bird, and very destructive to noxious insects and vermin, and therefore are great friends of the farmer.

"A year ago this month I purchased some Chinese ring necks of the Kendrick pheasantry of Denver. I secured five or six dozen eggs and hatched out thirty or forty chicks, but I made a mistake in using game hens to hatch the birds, and before I got onto it the hens killed the birds soon after hatching.

"I then switched to the common barnyard hens, with more success. I, however, found that I did not have enough room in town, so sent them out to the farm and built a wire pheasantry, covering about three-fourths of an acre, and succeeded in raising some birds.

"The farmers in the neighborhood are deeply interested in these birds, and the owners of about 2,000 acres of land have agreed to protect these birds against hunters, and supply feed for them during the winter. I am deeply interested in this move, and I am going to ask you to send me as many pairs of Chinese ring necks as you can conscientiously spare, for the purpose of putting them out in the pheasantry, hatching the eggs under barnyard fowls and liberating the chicks on the 2,000 acres referred to. I believe that I can make a showing this fall that your office will be proud of, so kindly let me have as many as one half dozen pair if possible."

LEAD A CIVIL LIFE

PRINCE AUGUST WILHELM, OF
PRUSSIA, THE FOURTH
SON OF KAISER.

PLANS TO BEAUTIFY THE CITIES

Berlin Now Wrestling With the Problem and Satisfied With the Headway That Has Been Made Up to Date.

BY STEVEN BURNETT.
International News Service.
Berlin, May 28—Prince August Wilhelm, of Prussia, the Kaiser's fourth son, who is destined to carve out a career in civil life, will shortly take

health and happiness of future generations as well as to secure the same, so far as money and technical skill can do it, for the present one.

Situated, as their city is, in the middle of Europe, and with a steadily growing influx and passage of merchandise and traffic, they offer prizes for the most promising plans and most practical suggestions with a view to realization later. They are satisfied that their system of communication is on a sound basis and that the same may be said of their water supply. They are now principally concerned about the dwelling question and the utilization of the woods and park lands and water surfaces around the city.

In respect to the first they look with envious eyes towards Vienna and Boston, while to Chicago they turn for ideas regarding public gardens and playgrounds. The exhibition is being held in the large annex at the zoological gardens.

Prince Wilhelm and His Beautiful Wife.

over an important executive position in the administration of the province of Posen or the viceroyalty of Alsace-Lorraine. The prince, who won the title of "doctor" in brilliantly successful university examinations, is meantime being put through the paces of civil administration at Potsdam. He is serious and studious, and is said to have developed genuine executive talent, as distinguished from the purely military bent of Hohenzollern princes.

A very interesting exhibition has just been open in Berlin, unique, too, of its kind, as nothing like it has been attempted in any other country. Described briefly, it is an assemblage of all that can direct the makers of cities in the laying out, building and organization of an ideal place of residence for populations large or small. Plans, pictures, photographs and models of parks, streets and houses are to be seen, and not alone of the greater Berlin of the future, which is even now engaging municipal attention in the German capital, but of cities like New York, Paris, Boston and Chicago.

It is recognized in Germany that a great, and, perhaps, the chief glory of the nineteenth century is the public awakening, which occurred during its last quarter, to the so-called "social question," and particularly that part of it which is concerned with the organization of towns with a view to dwelling, to transportation and to the exploitation of the town's natural surroundings for keeping young and healthy its inhabitants of every class down to the poorest.

The city fathers of Berlin are enthusiastic on the subject and are powerfully encouraged by the Kaiser in their efforts to prepare for the

ductivity, comes the wall of ordinary brick, and the more the brick is burned the more noise it carries. A quickly hardening lime mortar is to be preferred to clay mortar.

One experiment showed that when a floor is covered with sand and cork mats spread over it hardly any noise penetrates to the room below, but that when the mats are joined together by any material underneath, noises are at once perceptible.

Among the self-evident results were that the thicker the walls the less penetrating the sound, that double windows and double doors sensibly diminish the sound, and that wall curtains and hangings have a like effect.

How, it may be asked, are the sounds of the piano or violin in the neighboring flat to be excluded? The professor's reply is a suggestion to treat the ceiling as he successfully treated his telephone cell, namely, to line it with a layer of zinc or lead.

An opera by a female composer is a rarity, though songs and pieces for the piano by women are plentiful enough. At the court theater at Weimar an opera by a woman has just been produced for the first time, and, like Mr. Arthur Niven's "Poia" in Berlin recently, it failed to win the approval of the critics.

The lady composer—for one can hardly say composeress—is Cornelia van Oostersee, a Dutch woman, to judge by her name, and the title of the opera is "The Vow." The story is founded on a tale by a popular German novelist, Richard Boss; the action takes place about 1790, amid the Italian mountains; and the dramatic personae include shepherds, charcoal burners, banditti and the Italian gendarmes called Sbirri.

The chief defect of the work, according to the critics, is that it is too conventional, and this notwithstanding the free use in it of exciting elements like fighting, pilgrimages, weddings, love and death. The characters are said to arouse no interest, and the incidents to be not very clearly defined, while the whole action is confused by unnecessary religious ritual and declamation. The music is dismissed as "discreet" and "respectable." On the whole, a judgment not calculated to arouse much desire to hear the opera.

Approximately one-third of the state will furnish the fruit crop of Missouri this year.

PRESENTS FOR MECHANIC

Who is Coming With His Wife from England to Sedalia.

The Bolton, England, Evening Chronicle of May 14 has the following reference to a brother of Rev. Harold Cooper, pastor of the First Congregational church, who is expected to arrive here tomorrow with his wife to locate:

"The last few days have witnessed a couple of interesting presentations at Brownlow Fold Mills of Messrs. Richard Harwood & Sons. The recipient was Mr. Percy Cooper, the mechanic, who, with his wife and daughter, sets sail next week for Philadelphia, en route to Sedalia, in the state of Missouri.

"Mr. Cooper was presented with a beautiful gold guard by the foreman of the mills, and the millers presented him with a handsome dressing case, the gifts being handed over by Messrs. Edward Whittle and Fred Partington, who spoke in warm terms of Mr. Cooper and expressed their best wishes for his future career in the United States. Mr. Cooper appropriately acknowledged the presentations."

HARRY AXTELL is a coming sire, and the greatest bred member of the Axtell family. Is a handsome rich bay stallion, stands 15 1/2 hands high and weighs 1,100 pounds; foaled 1903, bred by W. P. Jams, Terre Haute, Ind. Individually he is a horse of grand finish and plenty of substance; with a fine disposition.

His blood lines are of the best as will be seen by his tabulated pedigree, the most popular and prolific speed producing combination in trotting blood lines, the kind that get the money on the race course and the prizes in the show ring.

That he will beget speed and grand road qualities there is no doubt, as he not only inherits but possesses these qualities in a marked degree.

Even common mares bred to a horse of this class cannot fail to produce foals that will find a ready market as carriage horses or roadsters as well as general all purpose horses.

Newbro's Herpicide Delights the Ladies

Because they know from experience that the intelligent use of Herpicide means much to their personal appearance. It saves and beautifies the hair and in the vast majority of cases, adds greatly to its abundance.

The presence of the dandruff germ in the scalp destroys the gloss and beauty of the hair, even before the resulting disease becomes firmly established.

Each day that the use of Newbro's Herpicide is put off, makes the repair that much more difficult.

Save your hair while you have hair to save.

The intelligent use of Herpicide proves its actual worth.

ENGLISH CHILDREN NOT TO BE TAUGHT THE USE OF IT UNDER NEW BILL.

ACTION CAUSES MUCH COMMENT

A System of Compulsory Physical Training is to Be Established for Children Until They Are 16 Years of Age.

International News Service.

London, May 28.—To stem the alarming growth of physical deterioration in England, caused by the rush into congested and unhealthy city life, a bill has been framed for presentation to parliament with the object of establishing a system of compulsory physical training for children.

The bill seeks to secure "universal and continuous physical training for the youth of both sexes, in order to avert, as far as is possible by such means, the danger of physical degeneration."

All school authorities are to provide physical training for both sexes for at least two hours each week, the instruction to be imparted by properly qualified persons. The training must be continuous, until the children reach the age of sixteen.

A curious clause of the bill provides that no scholar shall "in the course of any physical training provided under this act use or be taught the use of any war weapon of any kind whatsoever."

VERY BAD SERVICE

TELEPHONE OPERATORS FILE PROTEST IN REGARD TO TREATMENT.

"SPEEDING UP" IS SYSTEM BAD

At One Exchange Recently 30 Girls Out of a Staff of 36 Collapsed In Two Days—Hysterics of Daily Occurrence.

International News Service. London, May 28.—Telephone operators throughout the city are up in arms against the management of the postoffice exchanges, and at a recent mass meeting registered a protest against the treatment they were receiving.

It was alleged that the system of "speeding up" now in vogue and the hustling methods of supervision necessary to maintain the pressure were detrimental to the health of the staff, and directly opposed to the true interests of the service.

Details were given in support of the charges.

It was stated that at one exchange recently thirty girls out of a staff of thirty-six collapsed in two consecutive days.

Hysterics were of daily occurrence, and on one day at another exchange no fewer than forty girls of the 240

employed there were on the sick list. A strongly worded resolution was adopted unanimously by the meeting, which called the attention of the postmaster general and the public to the serious state of things.

Eat and Get Thin.

This is turning an old phrase face about, but modern methods of reducing fat have made its revision possible.

If you are overfat and also averse to physical exertion and likewise fond of the table and still want to reduce your excess flesh several rounds, do this: Go to your druggist (or write to the Marmola Co., 969 Farmer Building, Detroit, Mich.) and give him (or send them) 75 cents. For this modest amount of money the druggist will put you in the way of satisfying your ambition for a nice trim, slim figure. He will hand you a large case of Marmola Prescription Tablets (compounded in accordance with the famous Marmola Prescription), one of which you must take after each meal and at bedtime until you begin to lose your fat at the rate of 12 to 16 ounces a day. That is all. Just go on eating what you like, leave exercising to the athletes, but take your little tablet faithfully and without a doubt that flabby flesh will quickly take unto itself wings, leaving behind it your natural self, neatly clothed in firm flesh and trim muscles.

BRIAND'S TRIUMPH

HE IS PROVING HIMSELF THE STRONG MAN OF FRANCE, THE PEOPLE SAY.

WORK AND NO PLAY WITH HIM

Has Won a Reputation as One of the Greatest Orators of His Time —Never Known to Pre- pare a Speech.

BY GEORGE DUFRESNE. International News Service.

Paris, May 28.—M. Briand's triumph at the polls has given work to the biographers and the appraisers of political reputations. The premier appears to them in a totally different light than was the case in the days when he was simply a minister. There is a general consensus of opinion that he is proving himself the strong man of France—that he occupies the place which M. Clemenceau filled in the popular imagination. Power has had a fortifying effect on M. Briand. He is a changed man. He appears to live for his office alone, his main ambition being to discharge the duties of his position satisfactorily.

M. Briand, Premier of France.

It has been remarked that since he became premier M. Briand has severed himself to some extent from social life. It is all work with him now. He goes to bed early, and is at work by 8 o'clock in the morning, reading reports and attending to dispatches which arrive during the night. He takes care to read all the newspaper articles concerning his government. His callers are many, and he has a tactful way of dealing with them. Few leave the premier's presence discontented. He takes both luncheon and dinner in a restaurant, and rarely goes to the theater, preferring to spend an hour after the evening meal in discussing the events of the day with a few intimate friends. Before retiring for the night he dips into the classics. It is classical rather than modern works which appeal to him now.

Briand has won a reputation as one of the finest orators of his time. He is certainly the best extempore speaker in the chamber. He never on any occasion prepares a speech.

The discovery was made at the recent elections that there was a commune in the Montbellard constituency with only one voter. It is called Blanchfontaine, and is composed of three farms. The single voter recorded his vote on the 24th of last month. He had an urn to himself. As he was the only voter, when it came to examining the urn it was, of course, seen for whom he had voted. This voter could not play tricks on the candidates. Nor could he secretly abstain from voting, or put a white bulletin into the urn. He did his duty, this elector of Blanchfontaine. In his case the ballot was not secret. It was known that he had voted for Admiral Riennier. It is not known whether the admiral addressed a meeting at Blanchfontaine. It would certainly have been very nice of him had he given this single voter a meeting all to himself. This important gentleman cannot have himself elected a member of the municipal council, for Blanchfontaine with its single inhabitant naturally does not possess a council. Its interests have to be confided to the nearest municipal body.

The labor unionists have their knives into the journalists. The latter, it seems, wrote ironically of the great manifestation in the Bois de Boulogne, in which "two hundred hot-

SKIN-TORTURES YIELD TO EASY TREATMENT

"In 1907 my face broke out in a mass of itching sores which finally affected my eyesight. I tried several highly recommended salves that cost one dollar an ounce, but to no avail. A friend of mine urged me to try Cuticura Soap and Cuticura Ointment as he was sure of good results from his own experience. I used the Cuticura Ointment for about six weeks, after washing thoroughly with the Cuticura Soap. My face is in perfect health now which I owe to the Cuticura Remedies. I shall always stand by them as one of the greatest blessings to the suffering thousands. Arthur D. Gridley, 532 Dean St., Brooklyn, N. Y., April 9, 1909."

In the middle of the night of March 30th I woke up with a burning itch in my two hands and I felt as if I could pull them apart. In the morning the itching had got to my chest and during that day it spread all over my body. I was red and raw from the top of my head to the soles of my feet and I was in continual agony from the itching. I could neither lie down nor sit up. I happened to see about Cuticura Remedies and I thought I would give them a trial. I took a good bath with the Cuticura Soap and used the Cuticura Ointment. I put it on from my head down to my feet and then went to bed. On the first of April I felt like a new man. The itching was almost gone. I continued with the Cuticura Soap and Ointment and during that day the itching completely left me. Frank Gridley, 325 E. 43rd St., New York City, Apr. 27, '09."

headed youths took part." To write thus of a labor union demonstration was, in the eyes of the labor leaders, a serious offense which should be punished. They have therefore decided not to give the press any more information concerning their doings.

It follows from this decision that we shall not hear anything more of the trade unionists. The Union des Syndicats de la Seine will, therefore, cease to exist, for the Figaro pertinently suggests that the revolutionary leaders profit by the error with which the grave articles of naive reporters inspire certain people. The journal prophesies that the trade union leadership, deprived of their daily advertisement given to them, will bombard newspaper offices and beg the editors to publish the statement that they are very dangerous.

two sections of anarchists early yesterday morning. In a house in the Rue du Chevalier de la Barre are an anarchist printing office and the headquarters of an anarchist body, who hold "causeries populaires." At 6 o'clock in the morning M. Paraf-Javal, a revolutionary orator and writer, was helping ten young men who were dragging two handcarts. The latter had recently separated from the "causeries populaires" and formed a rival anarchist group in the Rue Blomet, and their intention was to remove the furniture from the Rue du Chevalier de la Barre.

M. Paraf-Javal knocked at the door. It was immediately opened by three anarchists, who fired revolvers at their former comrades. One of the latter was wounded, and had to be treated in a chemist's shop. The rest beat a retreat, pursued by the men with revolvers. Realizing that they were in danger, two of the dissident anarchists took refuge in a lavatory. Shots were fired through the keyhole, and the cries uttered told the pursuing anarchists that their bullets had done mischief. One of the men was wounded in the arm and thigh, besides having his lung perforated. He was removed to the Lariboisiere hospital in a grave condition. The police are now investigating the affair.

Public attention is being called to frequent instances of miscarriage of justice in France, and abolitionists of the death penalty find a strong argument in that fact. There appears to be very strong reasons for supposing that Briere, condemned to death some years ago for the murder of his five children, his sentence being commuted by M. Loubet to transportation for life, is an innocent man. It is not a newspaper idea, but the conviction of the officials at the penal settlement. The apache who was sentenced to the guillotine this week declared that his act was one of revenge for having been falsely accused by the police.

There is still doubt as to the justice of the sentence inflicted on the butler, Renard, condemned for the murder of his master, M. Remy.

TO BE A BIG DAY OUT EAST

Anniversary Service at Broadway Christian Church.

Sunday, June 6, is to be a day to be remembered at the East Broadway Christian church. It is to be observed as the twelfth anniversary of the dedication of their house of worship, which is being remodeled and beautifully decorated. It is to be fully ready to welcome the large audience expected that morning, when the Rev. T. A. Abbott, of Kansas City, one of the leading divines of the Missouri ministry, will be present and preach at the morning service at 10:45 o'clock.

Last year the day was observed by the members responding with a verse of Scripture at the roll call, when it was found that there were about fifteen charter members of the congregation present.

This year the church has several aims in view, which follow:

1. Every member of the church present.
2. Those living east of Ingram avenue and the M., K. & T. tracks, with membership elsewhere, identified with the East Broadway church for christian service.
3. All apportionments for all good works provided for.
4. Every member of the Bible school present with a new scholar at 9:30 a. m.
5. A "1910 front rank school."
6. The unsaved led to Christ.

For the evening service a splendid children's day program is being arranged.

S.S.S. CURES BLOOD TROUBLES

We have never claimed S. S. S. to be a medicine to work wonders, nor one that would cure every ailment of mankind; but we do know it to be a specific for those disorders originating from impure or diseased blood. When we say this medicine cures blood troubles we are stating a fact which is corroborated by the experience of thousands, and doubtless there are persons in your locality who know its value as a blood medicine because they have used it, or heard of its being used, with success.

Our bodies are absolutely dependent on pure blood for health. This fluid is the most vital force of life, and as long as it remains pure we are apt to escape disease, but any impurity, humor or poison acts injuriously on the system and affects some portion of the body.

Urticaria eruptions, pimples, rashes, and the various skin affections, show that the blood is in a feverish and diseased condition as the result of some humor, or the presence of a fiery acid which inflames and irritates the delicate fibres and tissues. Rheumatism comes from an excess of uric acid in the circulation, causing soreness and stiffness of the muscles and joints, while Catarrh, Sores and Ulcers, Scrofula, and Contagious Blood Poison are all deep-seated blood disorders which will continue to grow worse as long as the cause remains.

S. S. S. is a natural blood purifier and tonic. It is made entirely of the pure juices and extracts of roots, herbs and barks of recognized curative ability, and being absolutely free from all harmful minerals is a safe medicine for young or old. S. S. S. goes down into the circulation and removes every trace of impurity, humor or poison. It purifies and enriches the blood and cures promptly and permanently Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Skin Diseases, Contagious Blood Poison, and all other diseases and disorders due to impurities and

poisons in the blood, whether inherited or acquired. S. S. S. is the most reliable and at the same time the most pleasant acting medicine for those whose blood has become weak and anaemic, or who are suffering from Malaria or other debilitating sickness. It adds strength to the circulation, builds up failing health, and in every way acts as a bracing, healthful tonic to the system. We will be glad to send a general treatise on the blood, and any medical advice necessary to the treatment, free to all who write describing the trouble from which they are suffering. S. S. S. is for sale at all drug stores.

KEEP OF ROYALTY

SUM VOTED BY PARLIAMENT IS NOT LIKELY TO BE "CUT" FOR KING GEORGE.

HE CAN MANAGE TO PULL THROUGH

Not Necessary to Ask the Price of a Pound of Coffee or a Mackerel Before Placing an Order With the Grocer.

International News Service. London, May 28.—King George's civil list—the sum voted by parliament for the upkeep of the royal household and incidental expenses—will probably come under the scrutiny of a select committee of the commons for revision.

This was the case on the accession of Edward VII, when a considerable increase was recommended over the sum allowed to Queen Victoria, whose rather huddled court did not involve a large expenditure. On the other hand, graft and sinecures in the royal household, which have been pruned drastically under King Edward, were answerable for much waste of good money under the old queen.

The civil list of the late king was \$2,350,000 annually, but of this only \$550,000 went into the privy purse.

Over the balance King Edward had no control whatever. But the late king traveled a great deal, and kept up a degree of pomp and state which Queen Victoria was a stranger to in the latter years of her reign.

King George, it is expected, will follow in his father's footsteps in this respect, and there is not the least likelihood of any curtailment of his civil list. Only the socialist members of parliament are likely to make such a suggestion—and they would do it merely as part of their regular principles and policy.

HOSTESSES AT SEA

AMERICAN WOMEN WHO ARE IN HABIT OF ENTERTAINING IN LONDON.

THE KING'S DEATH IS THE CAUSE

Society Weddings Are to Be Shorn of Their Brilliance—Aviation Meetings Are Not to Be Interfered With.

BY WELLINGTON HOPE.
International News Service.

London, May 28.—American hostesses are plunged into a state of extraordinary confusion owing to the national mourning, and Mrs. Whitelaw Reid has been receiving many letters inquiring as delicately as possible what should be done under the circumstances. The weddings of Miss Drexel and Lord Maidstone and that of Miss Carter and Lord Acheson will be shorn of all their promised brilliance, and it is practically decided that there will be no receptions after the ceremonies. The invitations will be limited to intimate friends and relatives, but even then both churches should be well filled, although every one will be in black.

The wedding of Miss Helen Post, daughter of Lady Barrymore, and Mr. Montagu Elliot will not take place until July. All the big private entertainments, which were to have been given in honor of Mr. Roosevelt, have, of course, been cancelled. Among them was a magnificent entertainment which Mr. and Mrs. Andrew Carnegie, who have been away from England for some time, had planned. Then Mr. and Lady Helen Monro Ferguson were to have entertained Mr. Roosevelt at their northern home where a distinguished party had been invited to meet the ex-president. Mr. Ferguson is one of Mr. Roosevelt's oldest friends, and it is believed that the visit will take place, without, of course, the house party.

The death of King Edward will in no way interfere with the various aviation meetings which have been arranged to take place in July and August, and several fashionable seaside resorts hope to make handsome profits out of these fixtures. The flying craze has received a tremendous impetus through the example set by Mr. Grahame White, and at Oxford and Cambridge several young undergraduates are experimenting with aeroplanes.

The Duke of Westminster, who now owns three machines, has not yet attempted a flight, but he intends to do so as soon as the "interesting event" in his family has taken place. Lord Howard de Walden is another flying enthusiast and the young Marquis of Anglesey has got as far as "gliding."

The great event of the season will be the Bournemouth meeting in July. The principal feature of the meeting will be an over-sea race from Bournemouth to the Needles in the Isle of Wight. Hon. C. S. Rolls, eldest son of Lord Llangattock, who was just beaten by Mr. Herbert Latham in a similar contest at Nice two months ago, has entered for this race. A number of French aviators, including M. Bleriot, of cross-channel fame, have decided to enter for the distance race. The first distance prizes will not be awarded unless a flight of sixty miles is made. This is a remarkable instance of the progress which aviation has made since Mr. Santos Dumont was acclaimed as a hero, after flying a distance of ten yards in 1906.

After Bournemouth there will be a great meeting in Scotland, at Lanar.

The flying ground will be the race course, and already \$50,000 has been set apart for prize money. The meeting which begins on August 10 will attract hundreds of society folk who are on their way to shoot grouse on August 12.

Mr. Grahame White himself was to have had the honor at Whitsuntide of making a flight at Beaulieu before the Prince of Wales (now the king) on the occasion of his royal highness' visit to Lord Montagu, on which occasion it was expected that King Edward would have motored over to witness the young aeronaut's feats.

Several American hostesses are still in the midst of decorating and furnishing their houses in London and the builders and decorators will probably now be allowed to work on without interference on the part of the owners.

The Countess of Essex (nee Adele Grant) celebrated the making of a fortune of \$300,000, made in the rubber boom, by acquiring a charming house off Berkeley square, and her friends are wondering when the owner will be able to get into it. The house has been in the hands of workmen and decorators for over six months, and there is not the remotest possibility of Lady Essex being able to live in it until fall.

est possibility of Lady Essex being able to live in it until fall.

The Hon. Mrs. Henry Coventry (formerly Mrs. McCreary) is decorating her new home in Grosvenor square from top to bottom in French style and in order to be sure of the details she has imported twenty French decorators from Paris. Mrs. Coventry has collected Louis XIV furniture for many years, and the surroundings will be thoroughly in keeping with the chairs and cabinets. Her collection of old china, too, is considered one of the richest in the town. Mrs. Coventry has built two stories onto the house, which is now almost as big as that owned by the Drexels in the same square.

Mrs. Miller Graham, who had intended to entertain on a very large scale in Grosvenor square, has as a near neighbor, Mrs. Frank Mackey, both of whom will now divide their seasons between country house visits and Paris.

Rival operatic seasons are rare in London. It has always been found difficult to make a profit out of one season of opera, and it took many years of strenuous work, to say nothing of the loss of thousands of pounds, to turn the annual spring series of operas into a profitable undertaking. Nor has this success been achieved on the artistic merits of the season. If society and the parvenues who attempt to cling to society's fringe had not decided that support of the opera as a means to publicity was the proper thing to do, there is not the slightest doubt that Inaristic and Philistine London would be obliged to rely upon a fitful production whenever a musical enthusiast decided he had money to lose.

In spite of this chilly attitude toward music for its own sake, and in spite of the fact that Convent garden has mopped up every possible subscription, Mr. Thomas Beecham, inspired, no doubt, by the success of his recent season at Convent garden, a success that was directly due to "Elektra," and was therefore a success of curiosity, has taken His Majesty's theater, where he will attempt to woo those of the musical public who have money to jingle with a series of comparatively light operas, including many works which in the past have been tried and failed, such as Villier Stanfords "Shamus O'Brien" opera, and Offenbach's "Tales of Hoffman." Besides these, the plucky conductor intends to try and win allegiance for the older institution with several works, untried so far as England is concerned, but with a German reputation, which, in the case of modern musical output, is not always to be relied upon. The experiment will be watched with interest, for its success will denote a change in English musical taste that will come as a refreshing surprise to all who have the welfare of music at heart.

WYETH'S
SAGE AND SULPHUR
HAIR REMEDY

Grew a Full Growth of Hair on a Bald Head

Here's the Proof

For two or three years my hair had been falling out and getting quite thin, until the top of my head was entirely bald. About four months ago I commenced using Wyeth's Sage and Sulphur. The first bottle seemed to do some good and I kept using it regularly, until now I have used four bottles. The whole top of my head is now fairly covered with hair and it keeps coming in thicker. I shall keep on using it a while longer, as I notice a constant improvement.

Wyeth's Sage and Sulphur does not soil the skin nor injure the hair; but it is an ideal hair dressing that will restore faded and gray hair to natural color and keep the hair soft and glossy.

THEFT OF CROSSES

THIEVES BROKE INTO CHURCH IN RUSSIA AND STOLE TWO OF THEM.

HORRIBLE FATE OF THE SUSPECTS

An Instance of the Mediaeval Barbarity Practiced by the Peasants of the Lawless Caucasus Region.

International News Service. St. Petersburg, May 28.—An instance of the mediaeval barbarity still practiced by the peasants of the Caucasus region is reported from Ghely, a remote mountain village.

Thieves had broken into the local church, stolen two golden crosses and all the jewels on the sacred images. A young man who was suspected protested his innocence. He was flogged until he "confessed," implicating two other peasants. These latter were flogged and their heels burned. Under torture they promised to reveal the place where they had hidden the loot.

The prisoners led the way, under escort, to the mountains, but one of them threw himself down a precipice, and was dashed to pieces. The other tried to drown himself in a river, but was prevented by his guards.

Meanwhile the accusation had been made against a very old man, who had charge of the keys of the church. He was horsewhipped by the angry mob and finally his clothes were fired, either by himself or his persecutors, and he was burned to death. But the two golden crosses were not recovered.

WHEN HER BACK ACHES

A Woman Finds All Her Energy and Ambition Slipping Away.

Sedalia women know how the aches and pains that come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, all tell of sick kidneys and warn you of the stealthy approach of diabetes, dropsy and Bright's disease. Doan's Kidney Pills permanently cure all these disorders. Here's proof of it in a Sedalia woman's words:

Mrs. J. N. Elmore, 501 E. Third St., Sedalia, Mo., says: "A dull pain in my back and shoulders made me miserable and I was so lame at times that to arise from a chair or to stoop was an extremely difficult operation. A weakness of the kidneys also caused me great annoyance and I became worried about my condition. Finally I began using Doan's Kidney Pills, procured at Bard's drug store, and before long I was free from the trouble. Since publicly endorsing this remedy in 1906, I have had but little annoyance from my kidneys and therefore, I gladly confirm my former statement."

GAVE BIRTH TO TRIPLETS

Mother Received \$15, It Being Known as "King's Bounty."

International News Service. Dublin, May 28.—Mrs. Keady, a poor Irish peasant, benefited by one of the last acts of Edward VII. In accordance with immemorial custom, his majesty sent three pounds (\$15), being the "king's bounty" which is bestowed on every poor woman who gives birth to three living children.

Mrs. Keady's triplets were born at Galway, but died shortly after birth, but as they were all born alive the conditions of the gift were fulfilled. The letter containing the postal orders was posted in London on May 6, a few hours before the king's death.

BOY OF 12 FREEZING TO DEATH

While hunting for a job. Selfishness and greed. Grind your employees—make a 100 per cent profit on the money you invest in their wealth-producing labor. Hie yourself away to Europe; spend your surplus in hunting happiness; succumb to the load of a guilty conscience. In amusement, sports and maybe in hilarious living (can't be found in any or all of these), and let their boys and girls freeze to death and starve to death while hunting for a job.

Are you proud of your fortune and the way you got it? Which is most valuable, in your opinion, a little gotten by merit and helpfulness to others, and especially to those who help you to make your wealth, or a fortune gotten by the grinding methods mentioned above; so often and extensively practiced? To get rich, in money, the world's way of estimating riches, it may be necessary to let selfishness and greed control—to ignore the golden rule—but the man thus enriched is not rich but poor—poor indeed and greatly to be pitied. In order to reach my goal, of wealth, position, reputation, power, must I ignore my obligation to my fellow-man, and push him aside, back or down in my effort to gain these perishable things? Perish the thought. If I cannot accomplish my purposes, realize my hopes and make money or even a living by the practice of the mutual benefit, profit-sharing principle, I will do without money. Money is a good thing, a desirable thing; but there is such a thing as paying too much for money, and to be both blind and deaf to the rights and necessities of others is too much to pay for it. And, after all, the real business of life, of true men, is making men. Making money, simply for money's sake, is an unworthy ambition, and should never be reckoned the Summum bonum, but only as a means to an end, the noblest of all ambitions—to make men.

I want a partner who is in full accord with my convictions, as expressed herein, to help me put into effect, my plan. Resolutions, good resolutions are good, plans are essential, and you may wisely plan your work, but until you work your plan, resolutions and plans avail nothing.

TOOK MOTOR TRIP

MR. AND MRS. BATCHELLER, OF BOSTON, OUT "AUTOING" WITH ROYALTY.

A CLEVER BOOK OF CARICATURES

Marquis de Castellane Ran Across It Recently—Walter Winans Probably Best All Round Sportsman in All Europe.

BY MARQUIS DE CASTELLANE

International News Service.
Paris, May 28.—Once more the ever youthful and obliging Eulalie, "Infante of Spain," is chaperoning and introducing your fellow countrymen into royal society. The latest Americans so favored are Mr. and Mrs. Batcheller, of Boston. Eulalie has been their guest on a motor trip to Lisbon. The party stopped en route at Cintra, the summer home of King Don Manuel, of Portugal. His gracious mother, Queen Amelie, did the honors and received the American party most hospitably.

Eulalie, in days gone by, chaperoned many Americans. She always had a great liking for them, and she has never swerved in her allegiance. Once she set off on a similar trip with Mr. Hartupée McKee, the American millionaire, and his beautiful young wife, from whom he has recently been separated. Eulalie has two grown-up sons, the elder of whom married against the court and army regulations, much to the displeasure of the autocratic Alphonso, King of Spain. The young man was, I believe, severely disciplined in consequence, much to the annoyance of his august mother, Eulalie, who adores him. This son, by the way, has just made the "Infante" a grandmother. Certainly she does not look it, for she is just as sprightly and lively as when she had her memorable "tiff" with Mrs. Potter Palmer some seventeen years ago.

Speaking of the royal family of Spain recalls to my mind a rather clever book of caricatures of King Alphonso that I came across recently. In this book the young king is made to speak of the late King Edward as "Uncle Eddy," and the czar of Russia is spoken of as the "Emperor of the Knout." I am told the humorous Eulalie, who don't like her autocratic young nephew, has procured a copy of the book and secretly delights in showing it to her intimate friends; but of course this may be just a bit of gossip with no truth in it at all.

Mr. Walter Winans is probably the best all around sportsman in Europe. At least this is the opinion of his friends, among whom I may quote the Duke de Morny, the Marquis de Ganay and Henry Ridgeway. In his own familiar set he is known as "The Horse Wizard;" while it is generally agreed he is one of the best pistol shots in Europe. His book on the pleasure of pistol shooting has been translated into French and will soon appear for the benefit of French readers.

The great musical centers of Continental Europe are literally thronged with American singers. As there are more opera houses in Germany than in Italy or France, of course the greatest number are to be found singing in Germany. In seven concerts recently given in Berlin none but American singers figured on the programs.

I am glad, however, to say that Paris retains some transatlantic stars. Miss Minnie Tracey, of New York, has just been engaged at the Gaiety. Her voice is not powerful, but it is exquisitely cultivated, and she bids fair to become a great Parisian favorite. Miss Tracey is a daughter of the late Commissioner John Tracey. This is the first time an American singer has been engaged at the Gaiety.

The Marquis de Danay has organized a charity exhibition of one hundred great pictures of the past century. The marquis was formerly Miss Ridgeway, of Philadelphia, and is a sister of the well known sportsman, Henry Ridgeway. Twenty of the best known painters of the nineteenth century are represented at this exhibition, among whom may be mentioned: Corot, Rousseau, Dupre, Daubigny, Diaz, Jenkard, Meissonier, Millet, Delacroix, Courbet, Isabey, Ingres, Manet, Ricard and others. Many of these pictures have been loaned by Mrs. Potter Palmer and are from the collection in her Paris home. Exhibitions of this kind are doubly worth while—they help good works and cultivate good taste.

MUCH TRADE LOST

TO MERCHANTS OF LONDON BY THE RECENT DEATH OF KING EDWARD.

ABOUT SEVEN MILLION DOLLARS

The Rush for Black Gowns Swamped Market, but in the Meantime the Shelves Are Filled With Colored Gowns.

International News Service.

London, May 28.—It is now possible to make some estimate of the terrible loss which the death of King Edward has inflicted on trade in London. The big store proprietors say that the loss to the West End alone will amount to about seven million dollars. The chief sufferers are, of course, the big drapery stores in Oxford street and Regent street and the smaller dress-makers and milliners in Bond street. The first few days the rush to buy black gowns simply swamped the market, and many fashionable women did not move out of their homes for days owing to the fact that they could not get the clothes they required.

But the rush to buy means nothing to the store keepers, because two black gowns will serve a woman who would have bought a dozen colored dresses, and the stores had laid in an extra and dazzling supply of colored goods in the belief that this was to be the most brilliant season for many years past.

The canceling of balls, dinner parties, receptions and race parties means untold losses to tradesmen of all classes, and more especially to caterers and florists.

The hotels will suffer severely, and already many advance bookings of apartments have been countermanded. At this time of the year various regiments give their annual dinners at the West End hotels. There are usually between thirty and forty of these functions, and each dinner represents a sum of one thousand dollars in trade to a hotel.

It is not expected that the Epsom race meeting will be very seriously affected, as the crowd that goes to the derby is not the crowd that goes to Ascot. The Ascot meeting will be a terrible frost, as although the royal enclosure will be open the royal pavilion will be closed, and of course no member of the court circle will be present.

BETTER THAN SPANKING

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W, Notre Dame, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.
